

Polarized lenses to conquer the outside

Xperio UV™ polarized prescription sun lenses aren't just ordinary sun lenses. They help you see more no matter what you're doing outside, providing excellent clarity of vision all while protecting your eyes with a superior quality lens.

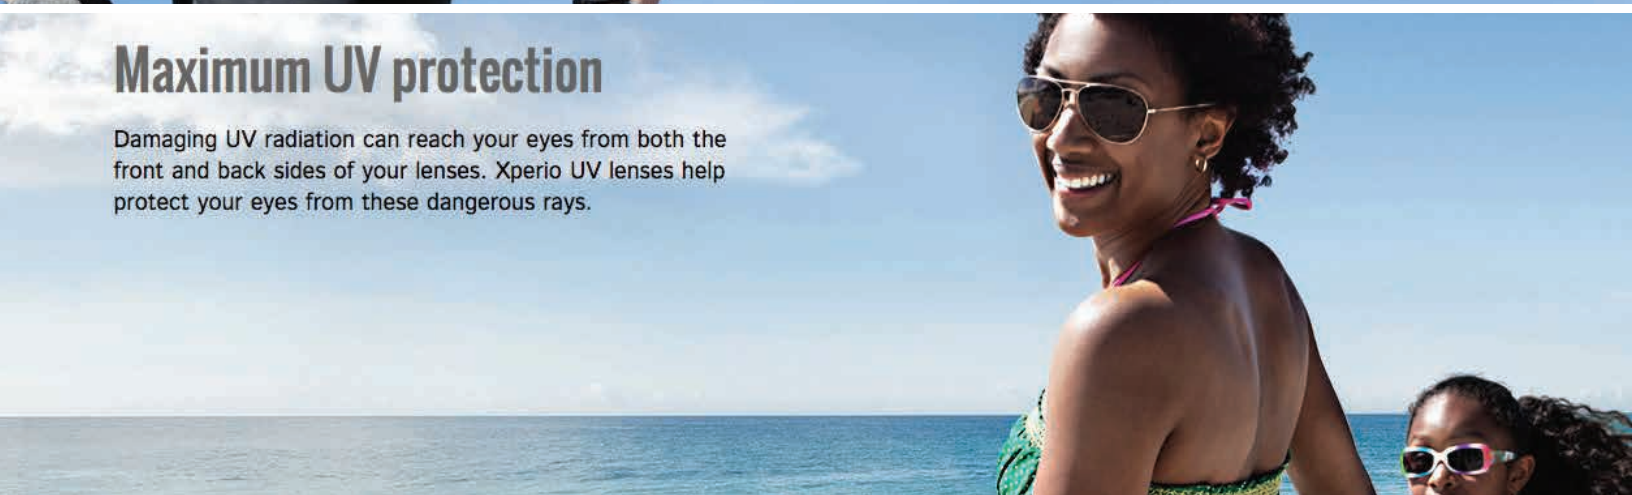

Enjoy a cleaner, clearer ride

Hustling down that trail means dirt and sweat smudging up your glasses. Xperio UV lenses have a water repellent coating that resists oil so the lenses are easier to clean, propelling you on to a clearer, better ride.

Maximum UV protection

Damaging UV radiation can reach your eyes from both the front and back sides of your lenses. Xperio UV lenses help protect your eyes from these dangerous rays.

2015 XPERIO UV™ Rx LENS AVAILABILITY CHART
